MADE IN CHINA

NO. K-E-00252-V1

CRC2003A

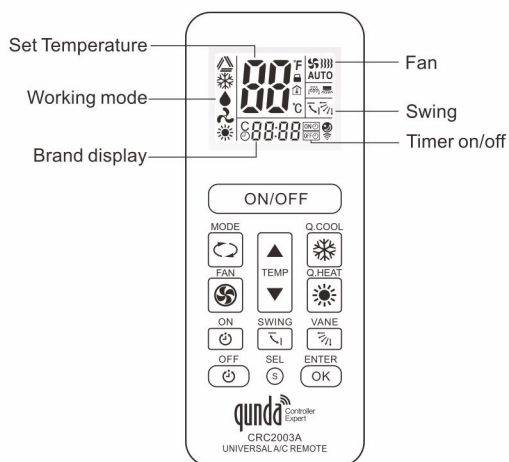

Product Description

CRC2003A is a universal remote control with patent technologies and all invented by our own engineers. It is easy to set codes, besides the on/off timer function, we also provide the unique new function "Q.COOL", "Q.HEAT".

Please read the manual carefully, it will help you to use the remote control.

Thanks for choosing QUNDA product, it is our best wishes to bring you easy life.

Panel description

Setting

Please ensure the air conditioner is powered on.

Select brands directly

1. Find out the brand code which is short for the brand from table list
2. Press and hold "SEL" key, release it when the code on LCD flashes.
3. Repeat press "TEMP+" or "-" key until the brand code appears on LCD.
4. Press "OK" key, the brand code stops flashing. Setting finishes.

Check all the keys work well, if not, please follow the below steps.

5. If it does not work well, please aim at the air conditioner, press and hold "OK" key until air conditioner sends "buzzer" sound. After setting, check other function keys can work or not, if it works, setting succeeded, if not, repeat above steps until it can use for your air conditioner.

Auto searching

If you can't find your air conditioner brand or it is not listed in the code table, please try the following ways to set.

Auto searching-1

1. Turn on the A/C, set the remote control aim at the unit. press and hold "SEL" key until the brand code appears on LCD.
2. Press and release "SEL" until air conditioner send "BUZZER" sound, release the key, the code flashes.
3. Press "OK" key, brand code stops flashing. Auto searching finishes. Check all other functions work or not, if it does not work, repeat above steps until it can use for your equipment.

Auto searching-2

1. Turn on the air conditioner, aim at A/C, press and hold "OK" key.
2. Release "OK" key as quickly as air conditioner sends "BUZZER" sound
3. Check all other functions work or not, if it does not work; repeat above steps until it can use for your equipment.

Timer setting

Timer off:

1. Press "OFF" button, the "OFF" and time symbols will flash.
2. Press "TEMP+" or "-" button to set the time, after 5sec the system will confirm the setting automatically. The timer range is 1-16h. Press "OFF" twice to cancel the timer.

Timer on:

1. Press "ON" button, the "ON" and time symbols will flash.
2. Press "TEMP+" or "-" button to set the time, after 5sec the system will confirm the setting automatically. The timer range is 1-16h. Press "ON" twice to cancel the timer. After completed the timer setting, aim the remote control emitter at the air conditioner receiver, or the timer may be failure.

Switch between °C & °F

Simultaneously press "TEMP+" and "TEMP-" to switch between °C & °F

Fast cool and fast heat

In the summer, only press "Q.COOL" button, the air conditioner will enter the fast cool mode. In the winter, only press "Q.HEAT" button, the air conditioner will enter the fast heat mode. In these two modes, the air conditioner will keep the temperature as a comfortable level automatically. And you can also use "TEMP+" or "-" buttons to choose your own temperature. The intelligent buttons are a good fit for the old and children.

Attention

1. If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.
2. Check carefully that there is no remora between remote controller and Air conditioner when the time off doesn't work. Because the operation is effective only when the air conditioner receives the timer off signal from remote controller.
3. The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance: Large than 8 meters (According to the machine)
Battery model: Battery AAA(UM-4. R03)X2
Dimension: L140mmXW55mmXD22mm
Weight: Approx62g (excl. the batteries)

Manufacturer

Name: QUNDA Control Technology (Jiangsu) Co., Ltd.
Address: NO.888 Longqiao road, wujiang economy development area, suzhou, jiangsu, China
