## Air-conditioner Remote Control's Pilot

### KT-518 Multi-Function Air-conditioner Remote Control user's Guide

# QUNDA®

#### Product Description

KT-518 integrates 100 brands of more 1028 models in one remote controller. It is the latest product of our company. Big capacity, low power, good quality and convenient to use. You can input brand code directly, or search the brand code automatically. Once selected, the code was stored in machine automatically for ever. Clock accurate, it has Timer on and timer off function. The perfect design provides you with convenience. So it is your best choice. Please read this user's Guide carefully before using it, which will be a great help to use the remote control for you.

#### Brand Code Setting of Remote Control

1. Open the batteries cover. Put 2 AAA (UM-4, R03) batteries as per polar indicated on battery cabin.
2. Find the brand code from "Brand Code List". If there are many codes for one brand, please use the first code, if it does not work, then use the second code. Repeat above steps until it is work. E.g. for SANYO, you should try 0046 first, if it does not work, then try 0047,0048...0600.
3. Press "SEL" key, brand code on LCD will flash. Press CODE "+" or "-" key until required brand code appears. Then, press "ENTER" key, the brand code stops flashing. Aim at air-conditioner by pressing ON/OFF key, you can remote control your air conditioner.

#### Auto Search setting of Remote Control

If you do not know brand of air conditioner or you can not find required brand from "Brand Code List", please do the following steps:

1. Press "SEL" key, brand code on LCD will flash. Let the remote control aim at air conditioner, press "SEL" key again and again. Press it once, brand code adds 1 by automatically and emit corresponding ON/OFF signal. Press and release until air conditioner receives signal and produces buzzer sound. Then press "ENTER" key.
2. After turning on the air conditioner, try other function keys. If they do not work, repeat above steps until it is correct.

#### Clock setting of Remote control

1. Press "clock" key, the clock on LCD will flash.
2. Press "TIME +" or "TIME -" key, tune to current time.
3. Press "clock" key again, the clock on LCD stops flashing, the setting is over. (The auto-setting is also finished in 5 seconds while you do not press "clock" key.)

#### Timer on/off setting of Remote control

**Timer on:** you can set timer on, only after turning off your air conditioner.

1. Press the "TIMER ON" key, the LCD displays the clock signal ⌚ and time flashing.
2. Press "TIME+" or "TIME-" key; adjust the time when you want to make the air conditioner turn on by automatically.
3. Time flashing will stopped after 5 seconds. The LCD displays current time and clock signal ⌚. Now setting finished.

**Timer off:** you can set timer off, only after turning on your air conditioner.

1. Press the "TIMER OFF" key, the LCD displays the clock signal ⌚ and time flashing.
2. Press "TIME+" or "TIME-" key, adjust the time when you want to make the air conditioner turn off by automatically.
3. Time flashing will stopped after 5 seconds. The LCD displays current time and clock signal ⌚. Now setting finished.

#### NOTE

1. If press the "TIMER ON" or "TIMER OFF" key while the time of timer is flashing, timer is cancel.
2. After timer setting is finished, you should make the remote control's emit directs to your air conditioner's receiving location in available distance. If not, it can not work.
3. If you want to watch the time of timer, you should press the "TIMER ON" or "TIMER OFF" key, the LCD will display the time of timer and after 5 seconds it will display current time.

#### Attention

1. Generally, the battery can be used for one to two years. If it is not used for a long time, remove the battery so as to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set brand code again.
2. If abnormal situation appears because of not correct use. Please put pen tip or other item into "Reset" hole. Press it to restore normal status. This time it is necessary to set clock again and you need not set brand code again.
3. As usual the LCD only display the time. When you want find the brand code, press "Enter" key, and the brand code display on LCD. After 5 seconds it will return to display current time.
4. Check carefully that there is no barrier between remote controller and air condition when the timer on/off doesn't work. It is effective only when the air conditioner receives the timer on/off signal from remote controller.
5. The manufacturer keeps the right to change the parameter and function of product.

#### Technical Parameters

**Controllable distance :** Large than 8 meters  
**Power supply voltage:** DC 3 V  
**Battery model:** Battery AAA(UM-4、R03)×2  
**Dimension:** L127mm×W48mm×D22mm  
**Weight:** Approx66.5g(excl.the batteries)
