KT-628 Universal A/C remote control user's Guide

Product Description

KT-628 is a new product with the patent of code setting which is invented by our engineers. You can input the numeric keys (0-9) for the code required directly, visual and convenient, quick and efficient. It has clock accurate, timer on and off, room temperature display, conversions between Celsius and Fahrenheit degree, code memory and also has unique function of "intelligent cooling" "intelligent heating". So it is your best choice.

Please read this manual carefully before using, which will be a great help for you to use the remote control.

The remote control can be used after setting. Pull side cover of remote control down, put 2 AAA (VM-4, R03) batteries as per polar indicated on battery cabin.

Patent code set up

1. Find out the codes from code table, there are many groups codes of each brand. Please try the first group, if it does not operate your equipment, try the second, and do it like this until the codes can operate your equipment. Ex: ALPIN, you can choose 0252, if it does not work, please try the 0253 etc.
2. Press the "S " key, the code on LCD will flash. Enter the 4 digit code in turn. Ex: "0252", press the "0" key, "0" stop flashing, the last three numbers flashing, then press the "2" key, the last two numbers flashing, and press the "5" key, the last number flashing, finally press the last number "2", all of the 4 digit code "0252" stop flashing, code entry is now complete. The remote control confirms the code automatically, and you can use the numeric key normally. You can operate your air conditioner now.
3. After the air conditioner on, try other function keys, if they do not work well, please choose the next group of code until all the functions can work. The remote control is 2000 codes in one, so it is invalid when the code greater than 1999.

Auto-search code setting

If you do not know the brand of your air conditioner, or if your brand is not listed in the code table, please operate as per following steps:
1. Put the remote control aim at your air conditioner, press the "S" key for 5 seconds and then release, remote control is entering the auto-search status, emit the signal continuously, the code flashes and increases. While the air conditioner receives the signal, and send one buzzer，press any key to confirm.
2. Try other function keys, if they do not work, repeat above steps until it is correct.

Using of "I.COOL" "I.HEAT"

In the summer, press the "I.COOL"Key only, the air conditioner will be cooled immediately. In the winter, press the "I.HEAT" key only, the air conditioner will be heated immediately. In both status, the air conditioner will let the heating and cooling in a comfortable temperature automatically, and the fan and swing are all automatic. At the same time, it also can adjust the temperature by "Temp.+" "Temp.-" keys as your requires. These two intelligent keys are very good for the children and the old.

Clock set up

1. Press the "clock" key, clock signal flashes.
2. Press "Time +/ Time -" key, adjust to the current time.
3. Press the "clock" key again, clock signal stop flashing, the time setting finishe.
(If you do not press the "clock" key, it also finishes automatically after 15 seconds)

Timer on

1. Press the "TIMER ON" key,the time on LCD flashes
2. Press "TIME +/-" key,adjust the time when you want to make the air conditoner turn on automatically
3. Time on LCD will stop flash after 15 seconds.Setting is complete

Timer off

1. Press the "TIMER OFF" key,the time on LCD flashes
2. Press "TIME +/-" key,adjust the time when you want to make the air conditoner turn off automatically
3. Time on LCD will stop flash after 15 seconds.Setting is complete

NOTE

1. If press the "TIMER ON" or "TIMER OFF" key twice, timer is cancel.
2. After timer setting is finished, you should make the remote control's emit directs to your air conditioner's receiving location in available distance. If not, it can not work.
3. If you want to watch the time of timer, you should press the "TIMER ON" or "TIMER OFF" key, the LCD will display the time of timer and after 5 seconds it will display current time.

Conversions between Celsius and Fahrenheit degree

Press the "C/F" key can convert the display between Fahrenheit and Celsius degree.

Attention

1. If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.
2. Check carefully that there is no remora between remote controller and Air conditioner when the time on/off doesn't work. Because the operation is effective only when the air conditioner receives the timer on/off signal from remote controller.
3. The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance : Large than 8 meters
Power supply voltage: DC 3 V
Battery model: Battery AAA(UM-4、R03)×2
Dimension: L160mm×W60mm×D27mm
Weight: Approx 93g(excl.the batteries)
