**QUNDA®****KT-B01 universal A/C remote control user's Guide****Product Description**

KT-B01 is the latest product of QUNDA, it is a brand universal remote with several patent technologies which is invented by our engineers: select brands by double key and patent code setting, place batteries, it can work for almost all brands all of the world without setting, It has clock accurate, timer on and off, setting easy, It is the best choice for you to replace the remote.

Thanks you for choosing our remote, it is honored that we can provide conveniences for your life.

Please read this manual carefully before using, which will be a great help for you to use the remote control.

Setting**Brand searching**

Put 2 AAA (UM-4, R03) batteries as per polar indicated on battery cabin. Choose one of the setting methods as below. Press "select" and brand button at the same time, screen displays "≡", and blinking three times, setting complete.

For example,

If your air conditioner brand is "GREE", press "select" and "GREE" for 1 second, and release, then it can work for your air conditioner.

If it cannot work, please turn on your air conditioner, and put the remote aim to the air conditioner, press and hold the brand button, when air conditioner sends a sound as feedback, release the button. Check whether every button works, if not, repeat above steps until it works.

For example,

If your air conditioner brand is "GREE", put our remote aim to the air conditioner, press and hold Gree button, when air conditioner send a sound as feedback, release the button then it can work.

Brand code setting

1、 Find out the codes from code table, there are many groups codes of each brand. Please try the first group, if it does not work, try the second, and do it like this until the codes can operate your equipment. Ex: AUCMA, you can choose 0288, if it does not work, please try the 0289.

2、 Press "select" key, the code on LCD flashes. Press code "+" or "-" key until required brand code appears, then press "ENTER" key, the brand code stops flashing. Aim at air conditioner by pressing ON/OFF key, you can control your air conditioner.

Automatic search

If you do not know the brand of your air conditioner, or if your brand is not listed in the code table, please operate as per following steps:

1、 Put the remote control aim at your air conditioner, press the "SELECT" key for 5 seconds and then release, remote control is entering the auto-search status, emit the signal continuously, the code flashes and increases. While the air conditioner receives the signal, and send one buzzer, press any key to confirm.

2、 Turn on the air conditioner, try other keys whether they work or not, if it works, setting succeeds, if it does not work; repeat these steps until it can use for your equipment.

Clock set up

- 1、 Press the "clock" button, it is blinking.
- 2、 Press the "+" "-" of the "time" button, setting to the current time.
- 3、 Press the "clock" button again, stop blinking, the time setting is complete. (If you did not press the "time" button, it can be setting automatically after 5 seconds)

TIMER ON AND OFF

You can set timer off, only after turning on your air conditioner.

- 1、 Press the "TMR off" button, the LCD displays the clock signal and time blinking.
- 2、 Press the "TIME/CODE" "+" or "-" button; adjust the time when you want to make the air conditioner turn off automatically.
- 3、 Time blinking and it will stop after 5 seconds. The LCD displays current time and clock signal. Now setting is complete.

Attention

- 1、 If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.
- 2、 As usual the LCD only display the time when pressing model codes "Enter" button, you can find the code and it is showed on LCD. After 5 seconds it returns time.
- 3、 Check carefully that there is no remora between remote controller and Air conditioner when the time on/off doesn't work. Because the operation is effective only when the air conditioner receives the timer on/off signal from remote controller.
- 4、 The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance: Large than 8 meters **Power supply voltage:** DC3V
Battery model: Battery AAA(UM-4, R03)×2
Dimension: L133mm×W45mm×D25mm
Weight:Approx52g (excl.the batteries)

Manufacturer

QUNDA Control Technology (Jiangsu) Co., Ltd.
Address: No.888 LongQiao Road, WuJiang District, SuZhou, China
Post code: 215200
