Brand Universal air conditioner remote controller

MADE IN CHINA

UNIVERSAL A/C REMOTE

KT-B03 One for all brands Universal air conditioner remote controller

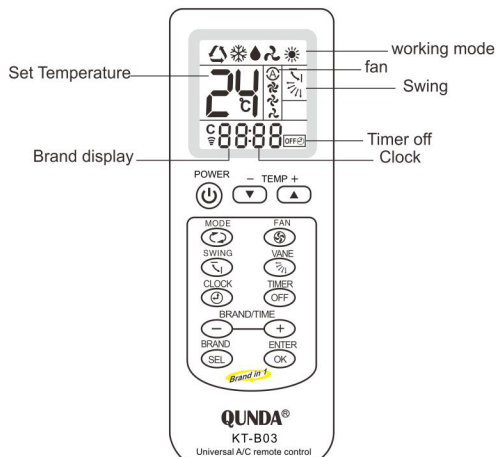

Product Description

KT-B03 is the latest product of QUNDA, it is a brand universal remote with patent technologies which is invented by our engineers: Place batteries, it can work for almost all brands in the world without setting, it is the best choice for you to replace the remote.

Thanks you for choosing our remote, it is honored that we can provide conveniences for your life.

Please read this manual carefully before using, which will be a great help for you to use the remote control.

Panel description

Setting

Select brands directly

1. Find out the brand code which is short for the brand from table list
2. Press and hold "SEL" key, release it when the code on LCD flashes.
3. Repeat press "BRAND +" or "-" key until the brand code appears on LCD.
4. Press "OK" key, brand code stop flashing. Setting finishes.
5. If it does not work well, please aim to the air conditioner, press and hold "OK" key until air conditioner sends "buzzer" sound. After setting, check other function keys can work or not, if it works, setting succeed, if not, repeat above steps until it can use for your air conditioner.

Auto searching-1

1. Open air conditioner, put remote aim to A/C, press and hold "SEL" key until the brand code appears on LCD.
2. Press and release "SEL" until air conditioner send "BUZZER" sound, after release key, the code flashes.
3. Press "OK" key, brand code stop flashing. Auto searching finishes. Check all other functions whether can work or not, if it does not work; repeat above steps until it can use for your equipment.

Setting

Auto searching-2

If you do not know the brand of your air conditioner, or if your brand is not listed in the code table, please operate as per following steps:

1. Open air conditioner, aim at A/C, press and hold "OK" key
2. Release "OK" key as quickly as air conditioner sends "BUZZER" sound
3. Check all other functions whether can work or not, if it does not work; repeat above steps until it can use for your equipment.

Clock set up

1. Press the "CLOCK" button, it is blinking.
2. Press the "BRAND/TIME + or -", setting to the current time.
3. Press the "CLOCK" button again, stop blinking, the time setting is complete. (If you did not press the "CLOCK" button, it can be setting automatically after 5 seconds)time and clock signal. Now setting is complete.

TIMER OFF

You should set the timer off after open the air conditioner.

1. Press the "TIMER off" button, the LCD displays the clock signal and time blinking.
2. Press "BRAND/TIME + or -" button, adjust to the required time
3. It will confirm the time of TIMER OFF after 5 seconds. Setting finishes. Note:
 1. The time frame can be set between 00-24 hours;
 2. Press the "TIMER OFF" two times continuously, cancels the timing.
 3. If you want to see the timer off time, you only should press "TIMER OFF", Then It will show this time, and after 5 seconds, it will show current time again.
 4. After timing setting, the launch direction of remote control must be aim at the receive direction of your air conditioner in the effective distance, otherwise the timing setting ineffectively.

Attention

1. If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.
2. Check carefully that there is no remora between remote controller and Air conditioner when the time off doesn't work. Because the operation is effective only when the air conditioner receives the timer off signal from remote controller.
3. The manufacturer keeps the right to change the parameter and function of product.
