QUNDA®
KT-e03 One-key universal A/C remote control user's Guide

Product Description

Valued users:

Thank you for choosing QUNDA universal remote control. It is greatest wishes of all my colleagues to offer facilities for your life.

KT-e03, one-key universal AC remote control is a high-tech product with several patents of invention which is invented by our engineers. Whether summer or winter, you could enjoy comfort just by one key.The case with fluent tie-in and gorgeous line is not only for the youth, and big buttons、big screen、big words also for the elder. You could find the function buttons inside the sliding cover, and a outside button especially for the child. And it has the design of differentiation senseless dots also suits for the blind.

KT-e03 is a universal remote that 4000 in 1, you could use it for both domestic equipment and imported equipment (control 98 percent air-conditioner in the world). In addition, the remote also has clock,timer on and off、room temperature、conversions between celsius and Fahrenheit degree, So it's your best choice of replacement. Please read this manual and set your remote for your brand before using and we hope it will help you to use this remote.

Setting of remote

Open the slide cover, put 2 AAA (UM-4, R03) batteries as per polar indicated on the battery cabin. Pull on the slide cover and all the function buttons appears. Set your remote with one of the following methods.

1、Patent code setting up

① Find out the required code from brand code list. If one brand has several groups of codes, you should try the first group.If it doesn't work, try the second and to this analogizes until the remotes can operate your equipment. Ex: AUCMA, you canchoose 0288, if it dose not work, please try the 0289 etc.

② press SELECT key. Enter the 4 digit code in turn. Ex : "0288", press the "0" first, and press "2"、"8"、"8" in the proper order. Press once, the direction light will flash,finish the code entry, the remote confirm the setting automatically. Tens digit codes return to the original function (EX: 1 for mode, 2 for swing, 3 for dir, 4 for fan. Etc.)

③ Press "one-key", the air-conditioner works. If it does not work, try "0289" uses these methods until the air-conditioner can work.

2、Auto-search code setting

If you do not know the brand of your air conditioner, or if your brand is not listed in the code cable, you searching for your code as follow:

①Put the remote aim at your air conditioner, press and hold S key for five seconds. The remote is entering the au-search status, launch the signal continuously, the code blinking and increasing. When the air conditioner receive the signal, and send a BUZZER, press any keys to confirm. Note: please press the keys as quickly as you listen to the buzzer, otherwise, you would miss the correct code.

②Put the remote aim at your air conditioner again, press "one-key", the air conditioner works and finish setting.Otherwise setting again use above methods.

Function indication

1、One-key nonstop function

After setting codes, whether in summer or winter, when you want to use air conditioner,just aim remote at your air conditioner and press the "one-key". Remote can judge the room is in summer or winter according to the current temperature.In summer,the temperature will be set in 26℃.In winter, the temperature will be set in 20℃,and fan middle, swing auto. If you feel not comfortable of the temperature, you could adjust by temp. "+" or "-" Of course,the remote also has common functions as original remote.

Function indication

2、Clock set up

①Press the "CLOCK" button, it is blinking.

②Press the TIME "+" or "-", setting to the current time.

③Press the "CLOCK" button again, stop blinking, the time setting is complete.(If you did not press the "time" button, it can be setting automatically after 5 seconds)

3、TIMER ON AND OFF

No matter whether the air conditioner on or off you could set the timer on and off at the same time.

①Press the "TMR on" button, the LCD displays the clock signal and time blinking. Press TIME "+" "-" button, adjust to the required time, and it will confirm the time of turn on after 5 seconds.

②Press the "TMR off" button, the LCD displays the clock signal and time blinking. Press TIME "+" "-" button, adjust to the required time, and it will confirm the time of turn off after 5 seconds.

Note:

①The time frame can be set between 00–24 hours;

②Press the "timer on" or "timer off" two times continuously,cancels the timing.

③After timing setting, the launch direction of remote control must be aim at the receive direction of your air conditioner in the effective distance, otherwise the timing setting ineffectively.

4、Conversions between Celsius and Fahrenheit degree

People used to the Celsius degree, just press the "C/F", remote will convert the display between Fahrenheit and Celsius degree and display it, and it works both ways.

5、Thermometer function

Except the setting temperature, it also can display the room temperature, so you could use it as a thermometer,offer convenience for controlling the temperature anytime. It could be automatic Fahrenheit and Celsius degree transformation by pressing "C/F".

Attention

1、If it is not used for a long time, remove the battery to avoid leakage liquid of the battery to damage the machine. When the LCD looks dim, please change batteries. (New and old batteries can not be used together) After the batteries are replaced every time, it is not necessary to set model code again.

2、As usual the LCD only display the time when pressing model codes "Enter" key, you can find the code and it is showed on LCD. After 5 seconds it returns time.

3、Check carefully that there is no remora between remote controller and Air conditioner when the time on/off doesn't work. Because the operation is effective only when the air conditioner receives the timer on/off signal from remote controller.

4、The manufacturer keeps the right to change the parameter and function of product.

Technical Parameters

Controllable distance: Large than 8 meters (According to the machine)
Battery model: Battery AAA(UM-4、R03)x2
Dimension: L145mmxW55mmxD16mm
Weight: Approx70g (excl.the batteries)
